Personal Device Requirements Checklist

Make sure your device...

- Is associated with your AT&T wireless account.
- Is an AT&T phone or device and isn't active on another AT&T account.
- Doesn't have an installment plan balance.
- Isn't associated with an account with a past-due balance.
- Hasn't been reported lost, stolen, or involved with fraud.
- Has had paid service for at least 6 consecutive months if it's an AT&T PREPAID phone.

If your device meets the requirements, request your unlock here: <https://www.att.com/deviceunlock/>

FYI: iPads® and wearables are already unlocked.

Is Your Device...

PAID THROUGH YOUR MONTHLY BILL?

Submit your unlock request at the start of your next bill cycle.

PAID OFF EARLY?

The wireless number assigned to the device must be active for at least 60 days. Wait 48 hours after you make your final payment to submit your unlock request.

Activating a Business Device?

Make sure...

- The company has given permission for the device to be unlocked.
- There's not an active contract or term agreement.
- The device meets the 30-day waiting period requirement if it was on a 2-year contract that was upgraded early.

Information obtained from AT&T on 11/20/2020.

Request an Unlock: AT&T reserves the right to deny any unlock request that it concludes would result in an abuse of the policy or is part of an effort to defraud AT&T or its customers. AT&T further reserves the right to alter this unlocking policy at its discretion without advance notice. If, during one month, more than 100 requests are made from a single source, and if more than 10% of those requests are duplicate IMEI numbers, AT&T will no longer process unlock requests from that source.
