

## Complete home protection

CLEARLY SMARTER PROTECTION

### Outdoor Camera Pro

The Vivint Outdoor Camera Pro is the only surveillance camera that intelligently identifies and automatically deters true threats. It doesn't just record activity—it helps prevent crime. It's like having your own personal security guard patrolling your home around the clock.

PROTECT YOUR PORCH AND PACKAGES

### Doorbell Camera Pro

Our doorbell camera automatically detects packages and uses light and sound to actively deter package thieves. With two-way talk, it also lets you answer the door from anywhere. And the app gives you quick access to your locks and garage door so you can let in the good and keep out the bad.

TALK WITH JUST A TOUCH

### Indoor Camera

The Vivint Indoor Camera, the world's first indoor camera with true two-way communication, keeps you connected to your family. View live and recorded video when you're away using your smartphone. And if you're home, call out to speak to family members with the press of a button.

CONTROL ALL OF YOUR DEVICES FROM THE HUB

### Smart Hub

Our Smart Hub connects and controls your entire smart home with 7" HD touch display. Get quick emergency assistance using 2-way talk with Vivint's support team. And in times of need, the battery backup keeps your Hub working and system connected.

CONTROL YOUR ENTIRE SYSTEM WITH THE VIVINT APP

### Vivint App

The wireless control system that connects doorbell cameras, security cameras, smart thermostats, door & window sensors, smoke detectors, and more into a single user interface. Just one more way Vivint lets you live more and manage less.

CONVENIENT, KEYLESS CONTROL

### Smart Locks

No more keys. With unique access codes everyone in the family—or even visitors—can come and go while your home stays secure. Control your locks when you're away using the Vivint app. And with one-touch lockup, you can control your security system, lights, and locks with the touch of a button.

SAVE MONEY WITHOUT SACRIFICING COMFORT

### Smart Thermostat

With the Vivint Smart Thermostat, you get smart temperature control that perfectly blends comfort and energy savings. It automatically adjusts temperature based on home occupancy, and you can change settings manually from anywhere with your smartphone—potentially saving you up to 12% on your energy bill.

PROTECTED NO MATTER WHERE YOU PARK IT

### Car Guard

With Vivint Car Guard, your vehicle's always protected. With the Vivint app, you can receive alerts on your phone if anyone disturbs your car and monitor vehicles with GPS location tracking.

CONNECT PRODUCTS YOU LOVE TO YOUR VIVINT SYSTEM

### Device Integration

Control your home with your voice using a smart speaker like Amazon Echo, integrate with a Nest thermostat to adjust home temps from anywhere, and set up custom actions to automate lighting with Philips Hue smart light bulbs.
